PROFILE

Digital marketing professional with hands-on experience across SEO, content strategy, social media, paid advertising, and email marketing, built through applied coursework and a live brand project. Comfortable turning market and keyword research into practical campaign and content plans, and skilled in Canva and Figma for producing on-brand marketing assets. Looking to bring a data-informed, detail-oriented approach to a Junior Digital Marketing Executive role.

EXPERIENCE

Digital Marketing Student — Uncommon.org

January 2026 – Present

- Built and presented multi-channel digital marketing campaigns, translating brand objectives into content and channel strategy.
- Conducted SEO audits and keyword research to identify on-page optimization opportunities for practice client sites.
- Designed marketing collateral, including social posts and promotional graphics, in Canva and Figma to brand guidelines.
- Set up and managed practice Google Ads campaigns and Mailchimp email sequences to build hands-on platform fluency.

Dream Store Brand Project — Youth Streetwear Brand

June 2026 – Present

- Developed an end-to-end digital marketing strategy for a youth streetwear brand, from research through execution.
- Conducted market and competitor research to surface positioning and content opportunities.
- Performed keyword research to inform SEO and content planning.
- Produced Instagram and TikTok content plans and promotional graphics in Canva to build a consistent brand identity.

Volunteer Scratch Instructor — Uncommon.org

January 2026 – Present

- Taught programming fundamentals to learners using Scratch, adapting explanations to different skill levels.
- Encouraged creative problem-solving and critical thinking through project-based coding exercises.
- Supported students individually during hands-on practice sessions.
